

Ear Wax Removal Specialist

Coming to Westleton Village

Hall, Friday 25th March 10.30am

– 2.30pm. Book early!

With over 30 years nursing experience, I started Suffolk Ear Care 3 years ago to help people with blocked ears. Most surgeries no longer offer this service and advise patients to look for private treatment.

I offer water irrigation (syringing) and endoscopic micro-suction, using the latest equipment and a mobile service for people who are unable to get to a surgery. I also offer a free pop in service to have your ears checked for wax build up.

Most people are reassured that I am a nurse. I am fully trained and insured. I follow strict covid safety guidelines. I have had my 2nd vaccination and test twice a week.

I offer a friendly service with short waits for appointments and reasonable rates. My prices are much more competitive than the big companies, £45 for 1 or both ears and a free revisit if necessary. Suction is £65.

Please do not hesitate to contact me.

“Highly recommended! Professional and prompt service. Also very patient with my husband and myself as we had very stubborn ear wax! Lovely lady 😊” Jackie Kinnear

*“Thank you! You might well have saved our marriage – the difference is remarkable”
